

Casabella® Vinyl

ScubaSeal Floor Care

- Frequently moved furniture should be equipped with felt pads to avoid scratching the floor. Heavy furniture and appliances should be equipped with non-staining large surface floor protectors. Furniture with castors or wheels must be easy swiveling, large surface non-staining and suitable for resilient floors. Do not use ball type castors as they can damage the floors.
- Avoid exposure to long periods of direct sunlight. Close blinds or drapes during peak sunlight hours.
- Use walk off mats at entrances to prevent dirt and grit from being tracked on to the floor.
- Sweep or vacuum the floor regularly to remove loose dirt. Avoid using a vacuum with a beater bar.
- Clean up spills immediately.
- Damp mop as needed using clean water and a diluted floor cleaner. Do not use harsh cleaners or chemicals on the floor.
- We recommend using a pH neutral vinyl floor cleaner as required. Examples of acceptable cleaners are Bona Stone, Tile, and Laminate Cleaner and ZEP. We do not warrant any of the cleaning agents or conditions associated with them as the application is beyond our control.
- Always rinse the floor with clean water and allow to dry as the floor may be slippery when wet. Air movers or fans will speed up drying time.
- Never saturate your floor.
- Do not buff, wax, or use cleaning products that contain surfactants. Dish lotions, laundry detergents, Murphy Oil Soap cleaners should never be used to maintain your floor.
