

CARE INSTRUCTIONS

RESIDENTIAL & COMMERCIAL INSTALLATIONS

To keep the lasting shine and fresh feel of your investment for as long as possible, we recommend that you:

DO:

- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on any laminate floor.
- Wash occasionally with a Hardwood and Laminate Floor Cleaner. For residential and commercial installations, we recommend XL North LVT/Wood Cleaner
- CASABELLA FLOORS Products approves the use of residential steam cleaners designed for hard surface flooring products to maintain our CASABELLA FLOORS Products Lincoln Highway 10+2 flooring.

DON'T:

- Use detergents, abrasive cleaners or "mop and shine" products – they may leave a dull film on your floor.
- Use paste wax or solvent-based polishes.
- Use rolling casters as they can damage the floor.
- Use a beater bar when vacuuming because it can visibly damage the floor surface.
- Use highly abrasive scrubbing tools.

PROACTIVE PROTECTION FOR YOUR FLOOR:

- When moving appliances or heavy furniture it is always wise to lay a plywood panel, or similar, on your floor and "walk" the item across it. This protects your floor from scuffing, gouging and tears.
- Use floor protectors under furniture to reduce indentation. As a general rule of thumb, the heavier the item, the wider the floor protector needed.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home. We strongly recommend mats without a latex or rubber backing since these backings can cause permanent discoloration.

CARING FOR YOUR FLOOR:

- Sweep or vacuum regularly, to remove loose dirt which can scratch your floor. Note: We do not recommend vacuums that have a beater bar since it can visibly damage your flooring surface. Additionally, we do not recommend electric brooms with hard plastic bottoms with no padding as use may result in discoloration and deglossing.
- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on any laminate floor.
- Clean your floor routinely using XL North LVT/Wood Cleaner.
- Do NOT use detergents, abrasive cleaners, or "mop and shine" products. These products may leave a dull film on your floor.
- Laminate flooring, like other types of smooth floors, can become slippery when wet. Allow time for floor to dry after washing. Immediately wipe up wet areas from spills, foreign substance, or wet feet.

IMMEDIATELY AFTER INSTALLATION:

- When the installation is completed, please follow the installation instructions for maintaining temperatures thereafter.
- Do not scrub or wash your floor for five (5) days.
